

MPCAC Annual Survey: 2018 – 2019

In accordance with the 2017 standards, MPCAC now requires programs to report program statistics (applications, admissions, graduations) and program outcomes on their websites. MPCAC will also need to report on these data for all of our programs in our annual report as part of our own public accountability. The deadline for the survey is December 1.

Please answer the questions below. If you have more than one program, please complete a form for each program. **We define an academic year as June 1 to May 31.**

Q12. Percent of those who graduated in 2018-2019 who became certified or licensed (depending on your state's regulations) as school counselors	__ 0 __ %

If you are not able to answer any of the questions regarding licensure, please explain why:
 I believe the data is reasonably accurate with respect to knowing whether recent graduates sought or obtained licensure. However, several graduates are working in states that do not have master's psychology licensure and a fair number are attending doctoral programs. Neither group would necessarily complete master's level licensure in Kentucky; yet they are working as clinicians or furthering their training.

Q16. Please describe any substantial changes in your program (number of credits, modifications in the curriculum, program director change, etc.).

We hired two excellent tenure-track clinical psychology faculty for the 2019-2020 academic year. (We now have no need of adjunct faculty in the program.) These faculty members have significant strengths in behavioral/CBT theory and practice. This approach can now be a major emphasis of the program, a common thread throughout. Therefore, we reordered the curriculum somewhat to build upon behavioral/CBT skills from the very first semester.

Q17. Any additional or other information you think it would be helpful for us to include next year?

Please see my response in the comments for Q12.
