

Standard C. 2

Field placement courses offered online must be synchronous.

Standard E. 6

The program director and the core faculty have the primary responsibility for ensuring a quality program. To optimize that sufficient faculty are available for the program and to ensure that students have sufficient access to those faculty, MPCAC requires that the majority (51%) of *required* (not including electives) or *total* (including electives) course credits be taught by core faculty. Those required course credits would include all the content necessary to meet MPCAC 2024 Standards B and C with a minimum of 45 credits. For any course in which multiple sections are taught, each section is part of the calculation of course credit percentage.
